WORK EXPERIENCE

Full Stack Developer Jadded

01/2023 - Present

Baabda, Lebanon

Achievements/Tasks

- Designed, developed, and deployed successful full stack applications using MERN stack.
- Implemented a comprehensive control room for real time data monitoring and statistical analysis.
- Developed alerting mechanisms to notify stakeholders of unexpected results, ensuring proactive response and problem resolution.
- Crafting, testing, and maintaining RESTful APIs for seamless data communication.

IOT Developer Webased

08/2022 - 10/2022

Hazmeih, Lebanon

Achievements/Tasks

- Developed a smart irrigation system using Python and MicroPython for efficient water management.
- Collaborated on building a user-friendly dashboard with Ionic and React to monitor and control the irrigation system.
- Implemented data synchronization with the server using Node.js (Express) to ensure real-time information retrieval.
- Thoroughly documented the codebase to enhance maintainability and facilitate future development.

EDUCATION

Bachelor of Science in Computer Communication and Network Engineering Lebanese University

2019 - 2022

SKILLS

React

Next.js

Node.js

Express.js

Mongodb

MySQL

Javascript

Typescript

Python

React Native

Firebase

PERSONAL PROJECTS

Discord Clone

- Technologies Used:** next.js, react, socket.io, prisma, tailwind, mysql
- Designed and implemented a responsive website project inspired by Discord.
- Implemented real-time chat functionality for instant messaging, enhancing communication.
- Integrated high-quality voice and video call features to facilitate effective collaboration among users.

Smart Irrigation System

- Technologies Used:** python, mysql, ionic, typescript, node, express
- Implemented IoT solution with Raspberry Pi Pico for plant sensor data collection.
- Engineered automated irrigation system based on sensor data for optimal plant health.
- Developed user-friendly dashboard for real-time sensor data visualization and water flow control.

Lebanese Driving License Exam

- Technologies Used:** ionic, react, typescript
- Developed a comprehensive mobile application encompassing all resources required for aspiring drivers to prepare for their driving license exams.
- Designed an interactive platform for practicing written driving test materials.
- Implemented a practical test simulation feature, enabling users to refine their driving skills and build confidence ahead of the actual exam.

COURSES

Mern Stack - Net Ninja

Mongodb, Express, React, Node, Jwt, Testing, Jest

React - Update Academy

HTML, CSS, JavaScript, Git, Node, JSON, API, CRUD application, Typescript, React, Redux, Hosting app

Full-Stack Development Track - Udacity

HTML, CSS, Javascript, Python, Sql

LANGUAGES

Arabic

Native or Bilingual Proficiency

English

Professional Working Proficiency
